Qinghua Ding(Devon)

AI Researcher

About me Devon is a researcher interested in artificial intelligence and its application in natural language processing and system optimization. He is undergoing his bachelor's courses in Computer Science Department, Tsinghua University. He likes playing ukelele and guitar, but fails to play them well. He loves calligraphy, painting and swimming. His cat, Blackie, is fond of fish and friendly to strangers.

Education

April 2014 - present, Tsinghua University

CS Department in Tsinghua is a nice place to learn and have fun. Basic courses like maths, algorithms, data structures are quite elegant for freshmen. However, courses in system, design and other advanced fields is also refreshing.

Experience

Nov. 2017-present, NLP Lab, Tsinghua

Advised by Prof. Minlie Huang.

Possible future, MSRA

Applying Internship.

Skills

Computer Languages

- C/C++
- Python
- html/css
- Java
- Matlab/Octave
- openMP/MPI

English Proficiency

- GRE: 320 + 3.0

Publications

(In preparation) ICDCS 2017

TCP Initial Window Optimization with RL.
